

HERMITAGE AUTOMATION & CONTROLS

COVID-19 STATEMENT

Hermitage Customers,

Here at Hermitage Automation we're learning as we go, too. Here is how we plan to serve you during this time:

Our priority is keeping our customers, vendors, and our team safe and healthy. Like so many businesses locally, nationally and worldwide, we are facing the challenges of dealing with COVID-19 (Coronavirus). Currently, we plan to provide our full level of services and operate Hermitage Automation & Controls with normal business hours. We are asking everyone to do their part.

What we are doing: Hermitage is following the guidance of the U.S. Centers for Disease Control (CDC) <https://www.cdc.gov/coronavirus/2019-ncov/index.html>. With information evolving rapidly related to the virus, we are communicating on daily basis with our both our office and suppliers to keep everyone updated with any changes in our business practices or protocols. We will continue to monitor information presented from the CDC and the Virginia Department of Health.

Even though, some of our vendors are in some of the most effected areas, New York, California, and Illinois, we do have contingency plans in case supply chain becomes an issue.

We will continue to support your essential business. And if we can do anything to help, please call 800-969-3030.

Sincerely,

Jeff Morgan

President
